-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-12, drawn to an absorbent garment with an elastic component, classified in class 604, subclass 385.24.
 - II. Claims 13-37, drawn to an absorbent garment with its absorbent structure attached to its liner and/or outer cover by an applied adhesive, classified in class 604, subclass 365.
 - III. Claims 38-43, drawn to an absorbent article which is a cleaning product, classified in class 15, subclass 118.
2. The inventions are distinct, each from the other because:
3. Inventions I and II, I and III, and II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are not disclosed as capable of use together and have different modes of operation, different functions, and different effects.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and the search required for Group I is not required for Groups II or III, restriction for examination purposes as indicated is proper.

5. Claim 13 is generic to a plurality of disclosed patentably distinct species of the claimed invention, comprising:

Species A: an absorbent garment in which the loops of the swirl-like pattern change size with distance as generically disclosed in Claim 13 and exemplified by specie of Claim 14;

Species B: an absorbent garment in which the loops of the swirl-like pattern change density with distance as generically disclosed in Claim 13 and exemplified by specie of Claim 15;

Species C: an absorbent garment in which the adhesive is a hot melt adhesive as generically disclosed in Claim 13 and exemplified by specie of Claim 18;

Species D: an absorbent garment in which the adhesive is a pressure sensitive adhesive as generically disclosed in Claim 13 and exemplified by specie of Claim 19;

Species E: an absorbent garment in which the adhesive is applied in lengthwise columns with greater adhesive applied adjacent the lengthwise edges as generically disclosed in Claim 13 and exemplified by specie of Claim 25.

6. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Art Unit: 3761

7. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

8. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Conclusion

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paula L. Craig whose telephone number is (571) 272-5964. The examiner can normally be reached on 8:30AM-5:00PM M-F.

10. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tanya Zalukaeva can be reached on (571)272-1115. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
